

Driving Check Report

Driving Safety Assessment

Generated: 8/7/2026, 8:30:00 AM

This is not a fitness-to-drive determination. Only a licensed physician or state licensing authority can determine whether a person is fit to drive.

Total Score: 47 / 60 (78.3%)

Result Category: Some Areas To Watch

Category Breakdown

Category	Score	Max	Percent
Reaction And Response	7	10	70.0%
Daytime Vision	9	10	90.0%
Night Vision	5	10	50.0%
Driving Record	10	10	100.0%
Physical Mobility	6	10	60.0%
Health And Medications	10	10	100.0%

Road Awareness Results

[PASS] Brake reaction (0.8s): Responded to all six stop cues.

[PASS] Hazard spotting: Spotted 5 of 6 hazards.

[ATTENTION] Night glare recovery (1.6s): Recovery slower than the comfort range on 3 of 4 trials.

Personalized Action Plan

- Night vision is the weakest area on this check. Consider limiting driving to daylight hours until an eye exam says otherwise.
- Turning to check the blind spot is uncomfortable. Blind-spot mirrors are inexpensive and a driver rehabilitation specialist can fit them.
- Two morning medications list dizziness. This is worth raising at the September appointment, along with the morning dizziness already being tracked.
- The driving record is clean and daytime vision is strong. Nothing here says stop driving.

Suggested Next Steps

- Book an eye exam and ask specifically about night vision and glare.
- Bring this report and the medication list to the September appointment.
- Look up a driver rehabilitation specialist through AOTA for an in-car evaluation.
- Agree with family on which trips are worth keeping and which are easier to hand off.

Detailed Answers

1. In the last year, how many times have you gotten lost on a route you know well?

Answer: Never

Score: 10/10

2. How comfortable are you driving after dark?

Answer: I avoid it when I can

Score: 5/10

3. Have you had a collision, or a near miss, in the last two years?

Answer: No

Score: 10/10

4. Can you turn your head far enough to check your blind spot without pain?

Answer: It is stiff but I manage

Score: 6/10

5. Do any of your medications list drowsiness or dizziness?

Answer: Yes, and I have discussed it with my prescriber

Score: 8/10

6. Has anyone in your family raised a concern about your driving?

Answer: Once, gently

Score: 8/10
